

PARTNER WITH SOLENTIVE TO UNLOCK NEW VALUE FOR YOUR CLIENTS

Business-Led Data & AI Consulting for MSPs

As AI reshapes the market, your clients' environments are being disrupted. You need to stay focused on what you do best, while helping clients navigate the transition. We partner with you to deliver strategic AI and data consultancy, ensuring your clients are prepared for the AI era.
The result? Happy clients, stronger partnerships, and shared success.

Blendon Rubie - Strategic Relationship Manager

You Excel At:

End-user support and device management

Proactively keeping systems reliable, secure, and running smoothly

Optimising licensing and managing risk, back-up, and disaster recovery

Solentive Enhances This With:

Aligning technology investments to fit-for-purpose business-led goals

Data and AI readiness, governance and frameworks

Ensuring solutions land with change management, capability building & adoption

How We Can Help You Succeed

Digital Strategy Advisory:

We develop a clear, business-aligned digital strategy and provide Fractional CTO expertise to complement your team, making sure the right things are prioritised, and the strategy is successfully executed

Capability Building & Adoption:

We drive adoption and behaviour change through capability building and business-aligned change management, ensuring new tools and technologies, like AI and Copilot, deliver lasting business outcomes

AI, Data & Custom Solutions:

We provide AI Strategies, Roadmaps, Frameworks, and Implementation, including Data Readiness, Governance, and Compliance

WHY PARTNER WITH US?

- **Keep your clients happy** by **going beyond** infrastructure & security
- **Protect & strengthen** your MSP-client relationship with added **strategic value**
- Deliver outcomes that position you as a **trusted advisor** in the AI era
